

Illinois Health and Science Completes Acquisition of IBA Molecular North America

August 3, 2015 - IBA Molecular, a global leader in the manufacture and distribution of radiopharmaceuticals, announced today the completion of the previously announced sale of its US operations, IBA Molecular North America, Inc. (IBAM NA), to Illinois Health and Science (IHS), a non-profit healthcare system based in Decatur, Illinois. The divestiture includes all of IBAM NA's cyclotron sites and its research and development facilities. Terms of the transaction were not disclosed. IBA Molecular is jointly owned by SK Capital Partners and Ion Beam Applications S.A.

Commenting on the closing, Renaud Dehareng, CEO of IBA Molecular, said "We are excited to announce the closing of the sale of IBAM NA to IHS. I would like to personally thank all of IBAM NA's employees for their commitment, dedication and hard work. The future for IBAM NA is bright under IHS' ownership given their leadership in nuclear medicine and strong commitment to customers, employees and patients."

Rothschild Inc. served as exclusive financial advisor to IBA Molecular for the transaction.

About IBA Molecular

IBA Molecular is a leading developer, manufacturer and distributor of radiopharmaceutical products and supporting services used in molecular imaging with operations throughout Europe and Asia. IBA Molecular has a unique product portfolio and pipeline of diagnostic and therapeutic tracers aimed at advancing the development of the global movement towards personalized medicine and making molecular imaging/therapy a major discipline in healthcare. The company also provides educational, technical and marketing support to medical specialists worldwide to help better respond to patient needs. IBA Molecular is jointly owned by SK Capital Partners and Ion Beam Applications S.A.
